Lebanon — +961 70 738 343 — abdulazizsayed04@gmail.com — [LinkedIn](#) — [GitHub](#)

Professional Summary

Computer Science graduate with expertise in Artificial Intelligence, Machine Learning, Data Analytics, and Full Stack Development. Currently pursuing a Graduate Professional Diploma in AI & Data Science at AUB while gaining industry experience through software development and data analytics roles.

Proficient in Python, JavaScript, Node.js, SQL, Machine Learning, NLP, LLMs, and data visualization tools. Experienced in building AI-powered applications, scalable backend systems, REST APIs, real-time platforms, and business intelligence dashboards.

Driven to develop innovative, production-ready solutions that combine modern software engineering practices with advanced AI technologies.

Technical Skills

Programming: Python, Java, C, C++, JavaScript, TypeScript, PHP, SQL, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive Web Design, AJAX

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication, Real-Time Systems

AI / Machine Learning: Machine Learning, Deep Learning, NLP, Arabic NLP, LLMs, RAG, Prompt Engineering, Sentiment Analysis, Classification, Clustering, Predictive Analytics, AI Ethics

Frameworks & Libraries: TensorFlow, PyTorch, Scikit-learn, Transformers, NumPy, Pandas, Matplotlib, Streamlit, FastAPI, OpenAI API

Databases: MongoDB, MySQL, Database Design, Query Optimization

Data Analytics & Visualization: Power BI, Looker Studio, Excel Analytics, Data Cleaning, Data Visualization, KPI Reporting

Cloud & DevOps: Git, GitHub, Docker, Firebase, CI/CD Fundamentals

Tools: Jupyter Notebook, Postman, VS Code, Linux, Windows Administration

Work Experience

Full Stack Development Intern — DigitHub Jun 2026 – Present

- Developing full-stack web applications using HTML, CSS, JavaScript, Node.js, and MongoDB.
- Building and integrating RESTful APIs for web applications.
- Collaborating on real-world projects using Git and GitHub version control workflows.
- Applying frontend and backend development best practices to create scalable applications.

Data Analyst & Systems Engineer — Tempo Glass Jun 2025 – May 2026

- Built dashboards and KPI tracking systems using Power BI and Looker Studio for business intelligence.
- Conducted data analysis and visualization to support strategic decision-making.
- Developed and optimized SQL queries for large dataset handling and reporting.
- Automated reporting workflows to improve efficiency and reduce manual work.
- Supported IT infrastructure operations including troubleshooting and system maintenance.

Software Developer Intern — Telepaty Holding Aug 2024 – Oct 2024

- Developed RESTful APIs using Node.js and Express.js.
- Optimized MongoDB and MySQL backend queries.
- Assisted with authentication and API validation workflows.
- Contributed to technical documentation and backend improvements.

Education

Graduate Professional Diploma in Artificial Intelligence & Data Science

American University of Beirut (AUB), Beirut, Lebanon

Aug 2025 – May 2026

Relevant Coursework: Machine Learning, Deep Learning, Data Science, AI Ethics, Business Analytics, NLP, Arabic NLP, LLMs, Predictive Analytics

Bachelor of Science in Computer Science

Lebanese American University (LAU), Beirut, Lebanon

Sept 2022 – May 2025

- Full Merit Higher Education Scholarship (HES) funded by USAID

Projects

Arabic Virtual AI Assistant (NLP + LLM System)

Mar 2026

- Developed an Arabic NLP assistant supporting translation, summarization, sentiment analysis, and question answering.
- Implemented a Retrieval-Augmented Generation (RAG) pipeline using embeddings and vector search.
- Built an interactive Streamlit interface for real-time interaction.

CVision — AI Resume Critique Tool

Jul 2025

Python, Streamlit, OpenAI API, PyMuPDF

- Built an AI-powered resume analysis platform with structured scoring and feedback generation.
- Extracted and processed PDF resumes using PyMuPDF.
- Designed prompt workflows for personalized recommendations.

AI Customer Support Chatbot

Dec 2025

Python, FastAPI, OpenAI API, MongoDB

- Developed an LLM-powered chatbot capable of handling customer support queries.
- Implemented conversation memory and FAQ retrieval using embeddings.
- Built scalable REST APIs for chatbot interaction and management.

LeNet-5 Optimization with Parallel Computing

Sep – Dec 2024

Python, CUDA, OpenMP, MPI

- Optimized CNN training and inference using parallel computing techniques.
- Improved execution speed using CUDA GPU acceleration and OpenMP/MPI.

Craftsmen Network Platform (AI + Real-Time Marketplace)

Feb – May 2025

Node.js, Express.js, MongoDB, Socket.IO

- Developed a marketplace platform connecting craftsmen with clients.
- Built real-time chat, notifications, and authentication systems.
- Implemented AI-assisted job recommendations and moderation features.

Certifications

AI & LLM Bootcamp

May 2025

- Prompt Engineering, LLM Integration, AI Application Deployment

Fundamentals of Accelerated Computing with CUDA C/C++

Oct 2024

Languages

Arabic (Fluent) — English (Fluent) — French (Elementary)
